## ANNEXURE-A.

### DEFINITION OF DISABILITIES

#### THE BLIND.

The Blind are those who suffer from either of the following conditions:-

- a. Total absence of sight;
- b. Visual acuity not exceeding 6/60 or 20/200 Snellen in the better Eye with correcting lenses;
- c. Limitation of the field of vision subtending an angle of 20 degree or worse.

#### THE DEAF

The deaf are those in whom the sense of hearing is non-functional for ordinary purposes of life. They do not hear, understand sounds at all events with amplified speech. The cases included in this category will be those having loss of 60 decibels or more in the better ear (profound impairment) or total loss of hearing in both ears.

#### THE ORTHOPAEDICALLY HANDICAPPED

Orthopaedically handicapped are those who have a minimum of 40% of physical defect or deformity which causes an interference with the normal functional of the bones, muscles and joints.

## ANNEXURE B

(Guidelines)

### CALCULATION OF THE NUMBER OF VACANCIES:

3.1 Although the recruitment of physically handicapped persons would be only against posts identified as suitable for them, while computing the vacancies to which the reservation would apply, the total number of vacancies occurring in the said Gazetted and Non-Gazetted would be taken into account i.e. the 3% shall have to be computed on the basis of vacancies occurring in both the identified and non-identified posts in Gazetted and Non-Gazetted.

3.2 All Heads of Departments shall maintain a separate 100 point REGISTER for this purpose, in which each cycle of 100 points shall be divided into three blocks, comprising the following points.

Ist. Block	-	point No. 1 to point No.33.
2 <sup>nd</sup> Block	-	point No. 34 to point No. 67
3 <sup>rd</sup> Block	-	point No. 68 to point No. 100

3.3 All the vacancies reported by the different appointing authorities will be entered in this Register for each Group of posts (Gazetted or Non-Gazetted). The account shall be maintained on year to year basis separately for Gazetted and Non-Gazetted posts/services and will be closed annually. For each Block of vacancies, there shall be reserved one vacancy for the physically handicapped posts/grades identified as suitable for one or more of the categories of the physically handicapped i.e. when there are 33 vacancies in a Group, one vacancy is to be reserved for the physically handicapped. After computing all the vacancies and determining the reservation for the handicapped, blockwise, in the manner indicated above, the Head of Department will be required to distribute these reserved vacancies for the handicapped among different appointing authorities in the light of availability of vacancies, in the identified categories under the various appointing authorities. Care should also be taken that 3% reservation for physically handicapped is, as far as possible, distributed equally among the three sub-categories i.e. the blind, the deaf and the Orthopaedically handicapped; consistent with the appropriate identification. If the number of vacancies is such as to cover only one block or two, discretion as to which category of the handicapped should be accommodated first should vest in the Head of the Department. He will besides this on the basis of the nature of the post, the level of representation of the specific handicapped category in the concerned grade/post and the availability of candidate of a particular handicapped category, in so far as that can be ascertained.

3.4 In the event of the reservation not being utilized in the same block in which it fell due, it shall be carried forward to the next block or

blocks as the case may be in the same year. In such exigencies where the reservation could not be utilized in any of the blocks during the year, the same shall be carried forward in the subsequent three recruitment years at the end of which the reservation shall be deemed to have lapsed.

3.5 Mutual exchange in the event of non-availability of specific handicapped category is permissible.

ILLUSTRATE:

In an organisation, the following vacancies in Gazetted in various categories of posts, as indicated against each, are to be filled:-

Clerks	40
Steno Gr. D	20
Staff Car Driver	15
Sc. Assistant	35
Research Asstt.	15
Lab. Assistant	10
Total No. of posts:	135

Out of these posts, only Clerks, Steno Gr. D and Laboratory Assistant in that organization are identified as fit to be manned by the Physically handicapped candidates, whereas the other categories are not identified. Both the Clerks and Steno Grade D are identified as suitable for Orthopaedically handicapped (one arm, one leg) and blind and partially blind; whereas the post of Laboratory Assistant is identified for Orthopaedically handicapped (one arm, one leg) and deaf, and partially deaf. In the present case, while working out the reservation for the physically handicapped, the total number of vacancies of 135 has to be taken into account (though the vacancies in the identified post are only 70). Accordingly, the number of vacancies reserved for the physically handicapped candidates would be 4. These vacancies would be distributed amongst the identified posts of clerks, steno Grade D and Laboratory Assistant. The reservation points the physically handicapped will utilize will be on the roster of these identified posts. This has been amplified in para 3.8. While distributing the vacancies among various categories of posts identified for physically Handicapped candidates, the Head of Department may ensure that this reservation is distributed equally among the three sub-categories of blind, deaf and orthopaedically handicapped consistent with appropriate identification for the posts. In this case, since the post of Lab. Assistant is identified for Deaf and partially deaf also, the reservation for deaf can be utilized against this post and the remaining vacancies can be distributed between clerks and steno grade D.

3.6 The reservation worked out as above may be reported to the recruiting agency while making recruitment to the identified posts.

3.7 The manner in which the physically handicapped persons so selected, are to be adjusted is as under.

3.8 Reservation for SC/ST/OBCs may be called vertical reservation and the reservation for physically handicapped persons as horizontal reservation. Horizontal reservations cut across vertical reservation (in what is called interlocking reservation) and the persons selected against the physically handicapped quota have to be placed in the appropriate category, if he belongs to SC category, he will be placed in that quota and will utilize an SC Roster point and similarly if he belongs to General category, he will be placed in that category and will utilize a general category roster point. Similarly, if he belongs to OBC or ST category, he will utilize an OBC or a ST roster point.

FOR EXAMPLE: If in a given year there are 200 Gazetted vacancies, the reservation for SCs will be 30, for STs it will be 15, for OBCs it will be 54 and for General Category it will be 101. The vacancies reserved for physically handicapped will be calculated as per the procedure enumerated in para 3.3 above. The vacancies for the physically handicapped in that year will come to six and these will have to be distributed among the Visually handicapped, the Orthopaedically handicapped and the Hearing handicapped as explained in para 1.1. Once these six candidates are selected against the identified posts and it is seen that one belongs to the SC category, one to the St category, then the one Physically handicapped SC candidate will be adjusted against the 30 SC vacancies, the one physically handicapped ST candidate will be adjusted against the 15 ST vacancies, the two physically handicapped OBC candidates against the 54 OBC vacancies and two physically handicapped candidates against the 101 general category vacancies respectively. In other words, the appointment is to be made on the basis of the physical handicap and the adjustment in the roster is to be made according to the category to which the person belongs.

It will be seen that considerable flexibility is available to the Head of the Department in the matter of recruitment of physically handicapped against the posts reserved for them. It is for the Head of the Department to decide the category of persons who are to be adjusted and the identified vacant posts against which they are to be adjusted. It is, therefore, requested that the Heads of Departments should make special efforts to ensure that the vacancies reserved for the physically handicapped are worked out correctly and complete utilization of the reservation meant for the physically handicapped is effected.

## Annexure-A

### Definition of Disabilities

#### The Blind

The Blind are those who suffer from either of the following conditions:-

- a. Total absence of sight;
- b. Visual acuity not exceeding 6/60 or 20/2000 (sullen) in the better Eye with correcting lenses;
- c. Limitation of the field of vision sub-tender on angle of 20 degree or worse.

#### The Deaf

The deaf are those in whom the sense of hearing is non-functional for ordinary purposes of life. They do not hear, understand sounds at all events with amplified speech. The cases included in this category will be those having hearing loss of 60 decibels or more in the better ear (profound impairment) or total loss of hearing in both ears.

#### The Orthopaedically Handicapped

Orthopaedically handicapped are those who have a minimum of 40% of physical defect or deformity which causes an interference with the normal functional of the bones, muscles and joints.

## **ANNEXURE B**

*(epide lines)*

### **CALCUALTION OF THE NUMBER OF VACANCIES:**

3.1 Although the recruitment of physically handicapped persons would be only against posts identified as suitable for them, while computing the vacancies to which the reservation would apply, the total number of vacancies occurring in the said Gazetted and Non-Gazetted would be taken into account i.e, the 3% shall have to be computed on the basis of vacancies occurring in both the identified and non-identified posts in Gazetted and Non-Gazetted.

3.2 All Heads of Departments shall maintain a separate 100 point REGISTER for this purpose, in which each cycle of 100 points shall be divided into three blocks, comprising the following points.

Ist. Block	-	point No. 1 to point No.33
2 <sup>nd</sup> Block	-	point No. 34 to point No. 67
3 <sup>rd</sup> Block	-	point No. 68 to point No. 100

3.3 All the vacancies reported by the different appointing authorities will be entered in this Register for each Group of posts (Gazetted or Non-Gazetted). The account shall be maintained on year to year basis separately for Gazetted and Non-Gazetted posts/services and will be closed annually. For each Block of vacancies, there shall be reserved one vacancy for the physically handicapped posts/grader identified as suitable for one or more of the categories of the physically handicapped i.e. when there are 33 vacancies in a Group, one vacancy is to be reserved for the physically handicapped. After computing all the vacancies and determining the reservation for the handicapped, blockwise, in the manner indicated above, the Head of Department will be required to distribute these reserved vacancies for the handicapped among different appointing authorities in the light of availability of vacancies, in the identified categories under the various appointing authorities. Care should also be taken that 3% reservation for physically handicapped is, as far as possible, distributed equally among the three sub-categories i.e. the blind, the deaf and the Orthopaedically handicapped, consistent with the appropriate identification. If the number of vacancies is such as to cover only one block or two, discretion as to which category of the handicapped should be accommodated first should vest in the Head of the Department. He will besides this on the basis of the nature of the post, the level of representation of the specific handicapped category in the concerned grade/post and the availability of candidate of a particular handicapped category, in so far as that can be ascertained.

3.4 In the event of the reservation not being utilized in the same block in which it fell due, it shall be carried forward to the next block or

blocks as the case may be in the same year. In such exigencies where the reservation could not be utilized in any of the blocks during the year, the same shall be carried forward in the subsequent three recruitment years at the end of which the reservation shall be deemed to have lapsed.

3.5 Mutual exchange in the event of non-availability of specific handicapped category is permissible.

**ILLUSTRATE:**

In an organisation, the following vacancies in Gazetted in various categories of posts, as indicated against each, are to be filled:-

Clerks	40
Steno Gr. D	20
Staff Car Driver	15
Sc. Assistant	35
Research Asstt.	15
Lab. Assistant	10
Total No. of posts:	135

Out of these posts, only Clerks, Steno Gr. D and Laboratory Assistant in that organization are identified as fit to be manned by the Physically handicapped candidates, whereas the other categories are not identified. Both the Clerks and Steno Grade D are identified as suitable for Orthopaedically handicapped (one arm, one leg) and blind and partially blind; whereas the post of Laboratory Assistant is identified for Orthopaedically handicapped (one arm, one leg) and deaf and partially deaf. In the present case, while working out the reservation for the physically handicapped, the total number of vacancies of 135 has to be taken into account (though the vacancies in the identified post are only 70). Accordingly, the number of vacancies reserved for the physically handicapped candidates would be 4. These vacancies would be distributed amongst the identified posts of clerks, steno Grade D and Laboratory Assistant. The reservation points the physically handicapped will utilize will be on the roster of these identified posts. This has been amplified in para 3.8. While distributing the vacancies among various categories of posts identified for physically Handicapped candidates, the Head of Department may ensure that this reservation is distributed equally among the three sub-categories of blind, deaf and orthopaedically handicapped consistent with appropriate identification for the posts. In this case, since the post of Lab. Assistant is identified for Deaf and partially deaf also, the reservation for deaf can be utilized against this post and the remaining vacancies can be distributed between clerks and steno grade D.

3.6 The reservation worked out as above may be reported to the recruiting agency while making recruitment to the identified posts.
